The specific requirements or preferences of your reviewing publisher, classroom teacher, institution or organization should be applied. This volume considers various systematic aspects of the geography of Africa and brings together a great deal of work done by geographers in recent decades. KEYWORDS: TROPAG Miscellaneous subjects Environmental Studies Reference Documents Africa.

Africa has eight major physical regions: the Sahara, the Sahel, the Ethiopian Highlands, the savanna, the Swahili Coast, the rain forest, the African Great Lakes, and Southern Africa. Some of these regions cover large bands of the continent, such as the Sahara and Sahel, while others are isolated areas, such as the Ethiopian Highlands and the Great Lakes.
