Use features like bookmarks, note taking and highlighting while reading SMOKING MIRROR BLUES: Or, Reviews: 1. In Ernest Hogan's Smoking Mirror Blues he puts the punk in cyber-punk. Hogan deconstructs the world we know and recreates a slightly askew near future that is recognizable as an extrapolated world based on our present/5. In Smoking Mirror Blues, Hogan shows that he's lost none of his outlandish verve. If anything, Smoking Mirror Blues finds Hogan more willing than ever to flex his gonzo muscles. In the near future, an experimental AI breaks loose, first in the mediasphere, then in the real world. Smoking Mirror Blues is a mashup of cultures, slang, Rock `n' Roll, sexuality, the internet, gods ancient and newer (media?); you name it Hogan has thrown it in to this fast moving and breathtaking trip through a decadently embracing El soyblancaalcala.coms: 3. Smoking Mirror Blues hits the ground running, shifting to different viewpoints every paragraph or so, generating and maintaining tension. With such a large cast of characters, one would expect things to get confusing, but Hogan manages the ensemble well. Smoking Mirror Blues by Hogan. An ancient god. A new technology. The future will never be the same. New technologies resurrect an ancient Aztec wizard/ warrior god, who hijacks the body of the one who resurrected him, running wild through a futuristic Hollywood, adapting the brave new world and getting back to his old business of creating chaos.
